Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science)

Mark Woodward

Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science) Mark Woodward

Highly praised for its broad, practical coverage, the second edition of this popular text incorporated the major statistical models and issues relevant to epidemiological studies. **Epidemiology: Study Design and Data Analysis, Third Edition** continues to focus on the quantitative aspects of epidemiological research. Updated and expanded, this edition shows students how statistical principles and techniques can help solve epidemiological problems.

New to the Third Edition

- New chapter on risk scores and clinical decision rules
- New chapter on computer-intensive methods, including the bootstrap, permutation tests, and missing value imputation
- New sections on binomial regression models, competing risk, information criteria, propensity scoring, and splines
- Many more exercises and examples using both Stata and SAS
- More than 60 new figures

After introducing study design and reviewing all the standard methods, this self-contained book takes students through analytical methods for both general and specific epidemiological study designs, including cohort, case-control, and intervention studies. In addition to classical methods, it now covers modern methods that exploit the enormous power of contemporary computers. The book also addresses the problem of determining the appropriate size for a study, discusses statistical modeling in epidemiology, covers methods for comparing and summarizing the evidence from several studies, and explains how to use statistical models in risk forecasting and assessing new biomarkers. The author illustrates the techniques with numerous real-world examples and interprets results in a practical way. He also includes an extensive list of references for further reading along with exercises to reinforce understanding.

Web Resource

A wealth of supporting material can be downloaded from the book's CRC Press web page, including:

- Real-life data sets used in the text
- SAS and Stata programs used for examples in the text
- SAS and Stata programs for special techniques covered
- Sample size spreadsheet

From reader reviews:

Sybil Moore:

Have you spare time for a day? What do you do when you have a lot more or little spare time? That's why, you can choose the suitable activity regarding spend your time. Any person spent their particular spare time to take a move, shopping, or went to the actual Mall. How about open or read a book titled Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science)? Maybe it is being best activity for you. You know beside you can spend your time together with your favorite's book, you can more intelligent than before. Do you agree with it has the opinion or you have various other opinion?

Michael Berry:

The book Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science) can give more knowledge and also the precise product information about everything you want. So just why must we leave the great thing like a book Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science)? Some of you have a different opinion about publication. But one aim that will book can give many details for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or data that you take for that, it is possible to give for each other; it is possible to share all of these. Book Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science) has simple shape however, you know: it has great and large function for you. You can appear the enormous world by open and read a guide. So it is very wonderful.

Jerry Jackman:

Hey guys, do you desires to finds a new book to see? May be the book with the name Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science) suitable to you? Often the book was written by popular writer in this era. The particular book untitled Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science) is the one of several books this everyone read now. This specific book was inspired many men and women in the world. When you read this reserve you will enter the new shape that you ever know ahead of. The author explained their thought in the simple way, thus all of people can easily to be aware of the core of this guide. This book will give you a wide range of information about this world now. To help you see the represented of the world within this book.

Arthur Mead:

Many people said that they feel fed up when they reading a publication. They are directly felt it when they get a half portions of the book. You can choose the book Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science) to make your personal reading is

interesting. Your current skill of reading talent is developing when you like reading. Try to choose basic book to make you enjoy to learn it and mingle the idea about book and reading through especially. It is to be initially opinion for you to like to wide open a book and study it. Beside that the e-book Epidemiology: Study Design and Data Analysis, Third Edition (Chapman & Hall/CRC Texts in Statistical Science) can to be your brand-new friend when you're really feel alone and confuse using what must you're doing of these time.
