Stranieri (Ultra sport) (Italian Edition) Mirko Nuzzolo, Enrico Turcato

In Italia la popolazione straniera è il 7,4% del totale complessivo, ma le statistiche cambiano completamente se passiamo nel campo dei professionisti dei principali sport di squadra, in particolare del calcio, del basket e del volley. Nell'ultimo campionato di Serie A, il 54,7% dei giocatori utilizzati era infatti straniero, nel basket saliamo al 58,6%, nella pallavolo ritorniamo a percentuali più basse (37% per gli uomini e al 34% per le donne), ma anche qui il trend è in forte crescita. Il primo boom degli stranieri è iniziato negli anni Novanta, ma il fenomeno ha assunto dimensioni enormi, paradossalmente, dopo la vittoria della Nazionale di Marcello Lippi ai Mondiali del 2006, prima della quale i giocatori non italiani erano appena il 29,4%. Ma quanto questa crescita ha contribuito alla nostra competitività internazionale? I dati sembrerebbero impietosi: la Serie A è il campionato più vecchio (27,3 anni), con i vivai meno competitivi (8,4% di giovani arrivano in prima squadra), ai Mondiali la Nazionale non ha superato neanche la fase a gironi nel 2010 e nel 2014, nel ranking Uefa l'Italia è quarta, tallonata da Portogallo e Francia. Le crisi del calcio, del basket e del volley italiano sono correlate alla presenza crescente degli atleti stranieri? In questo libro, due specialisti dell'analisi statistica applicata allo sport, avvalendosi anche dell'originale contributo di giocatori e allenatori del calibro di Zoff, Gentile, Bagni, Suárez e Bagnoli, rispondono in modo convincente a questa problematica domanda.
