Electronics for Service Engineers Dave Fox

Electronics for Service Engineers is the first text designed specifically for the Level 2 NVQs in Electronics Servicing. It provides the underpinning knowledge required by brown goods and white goods students, reflecting the popularity of the EMTA white goods NVQs. It has also been written in the light of the new EEB / City & Guilds Level 2 progression award (RVQ) for brown goods and commercial electronics, dubbed 'son of 2240', and the existing 2240 part 1.

The wide ranging experience of the authors makes this a readable book with much relevance to the real-life challenges of the service engineer. From simple mathematics and circuit theory to transmission theory and aerials, from health and safety to logic gates and transducers, the complete range of knowledge required to service electronic and electrical equipment is here. This practical emphasis makes the book ideal for existing service engineers seeking to gain an NVQ.

Numerous questions and worked examples throughout the text allow readers to monitor their own progress, and provide practice for C&G tests.

Joe Cieszynski and Dave Fox have a wide mix of experience, both in the field and workshop working on TV and audio, and teaching electronic servicing and security installation at MANCAT. Joe writes regularly for Television magazine.

From reader reviews:

Frances Lawler:

What do you consider book? It is just for students since they are still students or it for all people in the world, exactly what the best subject for that? Merely you can be answered for that question above. Every person has distinct personality and hobby for each other. Don't to be compelled someone or something that they don't desire do that. You must know how great and also important the book Electronics for Service Engineers. All type of book would you see on many resources. You can look for the internet methods or other social media.

Joshua Canfield:

In this 21st millennium, people become competitive in most way. By being competitive right now, people have do something to make these people survives, being in the middle of the crowded place and notice simply by surrounding. One thing that often many people have underestimated it for a while is reading. That's why, by reading a reserve your ability to survive enhance then having chance to endure than other is high. For you who want to start reading a new book, we give you this particular Electronics for Service Engineers book as starter and daily reading book. Why, because this book is greater than just a book.

Mike Gray:

As people who live in often the modest era should be update about what going on or info even knowledge to make all of them keep up with the era and that is always change and make progress. Some of you maybe can update themselves by studying books. It is a good choice in your case but the problems coming to anyone is you don't know which one you should start with. This Electronics for Service Engineers is our recommendation to make you keep up with the world. Why, as this book serves what you want and need in this era.

Billie Gallagher:

Nowadays reading books become more than want or need but also turn into a life style. This reading routine give you lot of advantages. The benefits you got of course the knowledge even the information inside the book that will improve your knowledge and information. The info you get based on what kind of publication you read, if you want attract knowledge just go with knowledge books but if you want truly feel happy read one along with theme for entertaining for example comic or novel. The particular Electronics for Service Engineers is kind of publication which is giving the reader erratic experience.
