Teacher Professionalism in Further and Higher Education: Challenges to Culture and Practice Jocelyn Robson

Teachers from further and higher education are rarely considered together. This book explores the differences and similarities that exist between these groups. It provides an up-to-date account of developments and brings together arguments and debates about both groups of teachers to challenge some strongly held beliefs.

Focusing on aspects of teachers' professionalism, Jocelyn Robson considers what 'professionalism' may mean and ways in which 'professionalism' has been studied. She goes on to consider:

- professional standards, training and qualifications
- professional identities and communities
- opportunities and strategies for professional development and renewal
- key debates in the literature and the most significant policy developments
- the main challenges currently facing the teaching profession in further and higher education.
