The New Grand Strategy: Restoring America's Prosperity, Security, and Sustainability in the 21st Century Mark Mykleby, Patrick Doherty, Joel Makower

The New Grand Strategy tells the story of a plan, born within the Pentagon, to recapture America's greatness at home and abroad by elevating sustainability as our new strategic imperative. It aligns our enduring national interests of prosperity and security with a new framework that addresses pressing economic, social, and environmental issues at home, tapping into a trillion-dollar market demand for walkable communities, regenerative agriculture and resource productivity. It is an inspiring vision of what's possible when Americans hold a collective view of the future and come together to bring it to reality.

This is no idealistic pipe dream or wonky policy prescription. The story that unfolds in this book weaves together hard-nosed economic analysis, a clear-eyed study of demographic and societal shifts, the realities of climate change and resource scarcity, a risk-based assessment of America's challenges and opportunities, and on-the-ground reporting of how much this is already unfolding throughout the country. By rediscovering the power and discipline of grand strategy—and taking responsibility for our future—America can reimagine the American dream and once again take on “the cause of all mankind.”

Released during one of America's most divisive presidential election campaigns, *The New Grand Strategy* avoids the partisan rhetoric dividing our nation today. Instead of placing blame, it offers a clear, pragmatic plan that can unite Americans and launch a new era of prosperity and security.
