**Understanding and Caring for People with Brain Disorders: A handbook for frontline staff, carers and students** Declan McNicholl, Rob Poppleton

This handbook gives a working knowledge and understanding of the brain's various parts and functions (basic functional neuroanatomy). It creates an awareness of what can go wrong and how to help the person with an acquired difficulty, including how to identify and how to initially assess difficulties. It will also highlight what can be done and the limitations of such interventions.
