Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series)

Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series)

This volume focuses on the important mathematical idea of functions that, with the technology of computers and calculators, can be dynamically represented in ways that have not been possible previously. The book's editors contend that as result of recent technological developments combined with the integrated knowledge available from research on teaching, instruction, students' thinking, and assessment, curriculum developers, researchers, and teacher educators are faced with an unprecedented opportunity for making dramatic changes.

The book presents content considerations that occur when the mathematics of graphs and functions relate to curriculum. It also examines content in a carefully considered integration of research that conveys where the field stands and where it might go. Drawing heavily on their own work, the chapter authors reconceptualize research in their specific areas so that this knowledge is integrated with the others' strands. This model for synthesizing research can serve as a paradigm for how research in mathematics education can -- and probably should -- proceed.

From reader reviews:

Steven Tran:

Book is to be different for every single grade. Book for children until finally adult are different content. To be sure that book is very important normally. The book Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series) has been making you to know about other understanding and of course you can take more information. It doesn't matter what advantages for you. The e-book Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series) is not only giving you more new information but also to be your friend when you experience bored. You can spend your current spend time to read your reserve. Try to make relationship while using book Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series). You never experience lose out for everything when you read some books.

Marc Gaul:

Here thing why this kind of Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series) are different and trustworthy to be yours. First of all looking at a book is good nonetheless it depends in the content of it which is the content is as delicious as food or not. Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series) giving you information deeper including different ways, you can find any book out there but there is no book that similar with Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series). It gives you thrill examining journey, its open up your own personal eyes about the thing this happened in the world which is maybe can be happened around you. It is possible to bring everywhere like in park, café, or even in your approach home by train. Should you be having difficulties in bringing the branded book maybe the form of Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series) in e-book can be your alternative.

Scottie Hicks:

People live in this new morning of lifestyle always try to and must have the spare time or they will get great deal of stress from both lifestyle and work. So , if we ask do people have spare time, we will say absolutely yes. People is human not just a robot. Then we request again, what kind of activity are you experiencing when the spare time coming to you of course your answer will certainly unlimited right. Then do you ever try this one, reading publications. It can be your alternative within spending your spare time, often the book you have read is actually Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series).

Michael Earl:

It is possible to spend your free time you just read this book this guide. This Integrating Research on the Graphical Representation of Functions (Studies in Mathematical Thinking and Learning Series) is simple to develop you can read it in the recreation area, in the beach, train and soon. If you did not have much space to bring the particular printed book, you can buy often the e-book. It is make you simpler to read it. You can save often the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.
