BOOK DESCRIPTION

The BLIND SCORPION is a Top Secret computer program for simulating nuclear weapons explosions and the catastrophic havoc they wreak. Dr. Ross Shaheen, the developer of the software, is living the American dream. Between his internationally-recognized nuclear weapons research career at the prestigious Berkeley Lab and his picture-perfect family in the San Francisco suburbs, it's a good life that can only get better...until he is lured into lecturing before an elite group of scientists in the country of his birth: Iran.

The seven thousand mile trip takes Shaheen back to the land of the lion and the sun, yet it also delivers to Iran's very doorstep an important American citizen with a Top Secret security clearance. It soon becomes clear what the Iranians are really after: the BLIND SCORPION. The coveted software is the key to advancing their clandestine nuclear weapons program without the rest of the world being able to prove its existence. Shaheen becomes entangled in a twisted web of espionage, corruption and survival, putting to the test not only his secret knowledge but also the very core of his allegiance to the land he now calls home.

If he lives, Ross Shaheen could walk away a hero.

The question is, for which country?
