Modern General Topology: 33 (North-Holland Mathematical Library)

J.-I. Nagata

Modern General Topology: 33 (North-Holland Mathematical Library) J.-I. Nagata
This classic work has been fundamentally revised to take account of recent developments in general topology. The first three chapters remain unchanged except for numerous minor corrections and additional exercises, but chapters IV-VII and the new chapter VIII cover the rapid changes that have occurred since 1968 when the first edition appeared.

The reader will find many new topics in chapters IV-VIII, e.g. theory of Wallmann-Shanin's compactification, realcompact space, various generalizations of paracompactness, generalized metric spaces, Dugundji type extension theory, linearly ordered topological space, theory of cardinal functions, dyadic space, etc., that were, in the author's opinion, mostly special or isolated topics some twenty years ago but now settle down into the mainstream of general topology.

From reader reviews:

John Armstead:

Do you have favorite book? When you have, what is your favorite's book? Publication is very important thing for us to learn everything in the world. Each publication has different aim or goal; it means that guide has different type. Some people really feel enjoy to spend their time and energy to read a book. They may be reading whatever they acquire because their hobby will be reading a book. How about the person who don't like reading through a book? Sometime, particular person feel need book if they found difficult problem or even exercise. Well, probably you will require this Modern General Topology: 33 (North-Holland Mathematical Library).

Kathryn Robinson:

Have you spare time for the day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity to get spend your time. Any person spent their very own spare time to take a wander, shopping, or went to often the Mall. How about open or even read a book allowed Modern General Topology: 33 (North-Holland Mathematical Library)? Maybe it is to get best activity for you. You recognize beside you can spend your time using your favorite's book, you can smarter than before. Do you agree with it is opinion or you have some other opinion?

Carl Speed:

Do you have something that that suits you such as book? The book lovers usually prefer to decide on book like comic, limited story and the biggest an example may be novel. Now, why not hoping Modern General Topology: 33 (North-Holland Mathematical Library) that give your entertainment preference will be satisfied by simply reading this book. Reading behavior all over the world can be said as the way for people to know world considerably better then how they react to the world. It can't be stated constantly that reading addiction only for the geeky man but for all of you who wants to possibly be success person. So , for all you who want to start reading as your good habit, you are able to pick Modern General Topology: 33 (North-Holland Mathematical Library) become your personal starter.

Juanita Geil:

You can get this Modern General Topology: 33 (North-Holland Mathematical Library) by visit the bookstore or Mall. Just simply viewing or reviewing it may to be your solve problem if you get difficulties on your knowledge. Kinds of this publication are various. Not only by written or printed but can you enjoy this book through e-book. In the modern era like now, you just looking because of your mobile phone and searching what their problem. Right now, choose your ways to get more information about your e-book. It is most important to arrange you to ultimately make your knowledge are still revise. Let's try to choose proper ways for you.
