This book presents a translation, with commentary, of a major Roman source on the end of the reign of Alexander the Great. Book 10 of Curtius' *Histories* covers the reign of terror and mutiny that followed upon Alexander's return from India; and offers the fullest account of the power struggle that began in Babylon immediately after his death. The Introduction establishes a profile of Curtius Rufus (quite probably a Roman Senator of the first century AD), and his agenda as a historian. John Yardley's translation and the commentary are designed for the reader without Latin. The Commentary provides detailed analysis of the historical events of the crucial period 325-3 BC covered by Curtius, and also tries to get behind the surface level of meaning to show how Curtius intended his history to be a text for his time. Curtius' text is also examined as a literary achievement in its own right.
