The Ethical School: Consequences, Consistency and Caring (Educational Management Series) Felicity Haynes

Conflicts often arise between regulations, making it difficult for school management teams and teachers to resolve situations with appropriate dignity and respect for all concerned. This book discusses provocative actual case studies to help teachers to reflect on their own ethics, guiding them to make more reasonable decisions in their schools, and thereby gradually transforming schools into more cohesive and caring communities. A model of consequences, consistency and caring, each aspect based on traditional ethical theories provides a scientific base - a rational and a responsive base for ethical decision-making. This work covers such everyday problems as censorship, inclusivity, school uniform, punishment, personal gain and confidentiality, and argues that care and respect for others, equity, rational autonomy and concern for long-term benefits are more important for a school community than short-term power and control.
