## **The Talmud: What It Is and What It Says** Jacob Neusner

Wherever Jews have settled and whatever languages they spoke, they created a community with a single set of common values. One law, one theology defined the community throughout their many migrations. A single book explains how this came about—the Talmud. By re-framing the Torah through sustained argument and analysis, the Talmud encourages the reader to actively apply reason and practice logic.

Renowned scholar Jacob Neusner introduces readers to the Talmud, defining it, explaining its historical context, and illustrating why it remains relevant today. Neusner's *The Talmud: What It Is and What It Says* invites readers to engage with the text, and emphasizes that the Talmud will continue to be an important cultural guidebook for Jewish life through the next millennium.
