## **A Living Countryside?: The Politics of Sustainable Development in Rural Ireland (Perspectives on Rural Policy and Planning) Tony Varley**

By examining a range of experiences from both the north and south of Ireland, this book asks what the ideal of sustainable development might mean to specific rural groups and how sustainable development goals have been pursued across the policy spectrum. It assesses the extent of commitment to a living countryside in Ireland and compares various opportunities and obstacles to the actual achievement of sustainable rural development. How different sectors of rural society will be challenged in terms of future survival provides an overarching theme throughout.
