Fame is no longer the name of the game...it's survival.

Latter-Day Olympians, Book 5

Tori Karacis is back in L.A., relieved to once again match her passport photo thanks to a tattoo that controls her gargoyle-esque wings. Her newest case doesn't involve gods or an impending apocalypse. It does, however, involve murder.

Jessica Roland's suspicions began when her brothers returned from Egypt eerily different. The terror kicked in with the ritualistic murder of her parents. Her *real* brothers would never have done such a thing, yet their guilt seems indisputable. What could it be? Curse of the Pharaohs? Some kind of brain-eating bacteria?

At the scene of a second attack, there's evidence it's the work of Set, the god of chaos, who should have been locked away a long time ago. And *hello*, there's a new arrival. Neith, a warrior goddess who's got the hots for Tori's ex, Nick Armani.

Tori should be cool with that. After all, she's involved with Apollo—*that* Apollo. Still, it's a bit much for Neith to ask for seduction advice! Meanwhile, Set is gaining strength, chaos is leaking all over the place, and L.A. is a powder keg set to blow.

Warning: Relationships heat up and danger mounts. Prepare for chills, thrills and kills when Chaos makes its Hollywood debut.
