The Panzer III (Hitler's War Machine) Bob Carruthers

The Panzer III was designed to be the backbone of the Panzer force and was deployed on every front. However, due to its deficient armament and poor armour, and despite its outstanding reliability, it was obsolete by 1942.??This comprehensive overview of the Panzer III in action was compiled by Emmy Award winning historian Bob Carruthers. It draws heavily on war-time intelligence reports to produce a fascinating insight into the development and combat history of the Panzer III at the tactical and operational level.??Also featured are rare developments such as the flame thrower variant alongside unpublished photographs and illustrations which provide an absorbing study, from an array of primary sources, of the world of the Panzer III and its crews, which conveys to the modern reader a vivid sense of how they were viewed at the time.
