## **The Sociology of the Workplace (RLE: Organizations) (Routledge Library Editions: Organizations)**

This volume adopts an interdisciplinary approach. The study of the workplace is approached from the standpoint of industrial sociology, industrial relations, industrial anthropology and other related disciplines. It includes contributions from economists and psychologists as well as from sociologists. The theoretical and practical issues raised, are, however, central to the sociological tradition of Marx and Weber in that they concern the meaning of human and social phenomena and their relevance to resolving questions of moment in industrial and industrializing societies.
